

Travellers tales cont...

Flying out of Milan we headed for Dublin and the wonderrful sights of Ireland.

The tour took us via Drogheda, Newcastle, Belfast, Giants Causeway and Derry - in the North before crossing to Donegal and the North West Coast to Ireland, visiting Killybegs and Glen Columbkille. Our next towns were Bundoran, Castlebar, Our Lady's Shrine at Knock where Fr Peter concelebrated Mass and then to Kylemore Abbey and Ballintubber Abbey.

Galway was next, the cliffs of Dover, Tralee which was our headquarters for three days and from where we visited Dingle Bay, the ring of Kerry with its glorious scenery and Killarney. That night we visited Killarney Manor for dinner and a show with traditional dancing and music. Limerick was next and on to Cork, Cobh with its wonderful Cathedral and the historic port museum. Next day to Cahair, Cashel and its famous Rock, Kilkenny, Waterford and back to Dublin via Avoca and Glendalough. The last two days were spent sightseeing all around that famous, fascinating and ancient city - before we all separated to eventually arrive back in Melbourne.
